LB 918

to say this offering is in compliance with Section, whatever it is,...

PRESIDENT MAURSTAD: One minute.

SENATOR CHAMBERS: ...of the Nebraska statutes, that would aid and facilitate the activity which supposedly, I presume, is to be guarded against, and the person could actually say that this offering complies with this section of Nebraska statutes because all they have to do is say it. It doesn't say that it actually has to be true, so I see that as being pointless. Sections 4 and 6 would amend Sections 76-1713 and 76-1716 of the Nebraska Time-Share Act to provide that a contract for purchase of a time-share interval may be cancelled within three "business" days rather than three calendar days after receipt of the public-offering statement by the purchaser. I suppose if this is to be a customer friendly bill, it would be better to give three business days for cancellation rather than three calendar days because the thing could be received on a Friday. Then Saturday and Sunday and Monday at the most would constitute the three days during which the cancellation should occur. So two of those days would be ineffectual. If you make it three business days, at least they would occur during a time when the operation is conducting business, even if it conducts business on Saturdays and Sundays and even holidays. But when I read these kind of provisions, I'm wondering why we were not willing, when it came to tenants being bounced out of their units, we were going to shorten the amount of time that they had to challenge an eviction; maybe because the caliber of people who get involved in these time-share outfits are the elitists and their interests have to be looked after. I don't know where these things occur. I don't know the income level of people who get involved with these things; but since the Legislature and individual senators do not bring bills, with certain exceptions, designed to benefit poor people, this must be one of those that is dealing with what I would call if not the upper crust, the middle crust, and you do find that in cobbler anyway. You have a bottom crust, you have an upper crust, then you have crust in the middle which is not really like crust, it's kind of a doughy consistency. Now Section 5 would amend Section 76-1715 of the Nebraska Time-Share Act, and this section requires that a deposit made in connection with the purchase or reservation of a
